

24W LED 5 Foot Fluorescent Tube (1700 Lumens)

Specifications:

- LED Type: SMD3020 LED x 300pcs
- Colour Temp: 5600~6300K (Daylight)
2800~3200K (Warm White)
- Base Type: T8
- Input Voltage: 100~240 VAC
- Power Consumption: 24W (Typical)
- Power Factor: 80% (Typical)
- Operating Temp: -30°C ~ +45°C
- Storage Temp: -40°C ~ +80°C
- Illumination Angle: 120°
- Lumen: 1700 lm (Typical)
- Colour Rendering Index: 70%
- Illuminance: 140 Lux (1 tube at 2M Height)
- Lifetime: up to 40,000 hours at ambient temperature 25°C
- Housing: Aluminum alloy + PC

Features:

- Long life (up to 40,000 hours at ambient temperature 25°C)
- Low power consumption, saving energy and money
- No started needed, replaces the traditional fluorescent tube directly
- Compatible with T8/T10 lighting fixture
- Instant light-up with no flicker
- Aluminum alloy body helps better heat dissipation
- No UV or Radiation
- No pollution and recyclable, ROHS compliant
