Features

- **UNIQUE DESIGN** : Adorable 3D mirror tunnel light with fantastic LED illumination. This LED light decoration adds vitality to your bedside table, creating a warm atmosphere in your space. The light can be adjusted to 358 different magical atmospheric effects.
- **RGB Color Changing Lights** : Both static and dynamic lighting effects are suitable for any indoor occasion, whether it's adding vibrancy to a romantic dinner or enhancing a casual gathering. Additionally, it's smart enough to remember the last setting even after being shut down.
- **Easy to use and install** : The tunnel mirror light comes with a power supply. The hanging hole design at the back of the mirror tunnel light allows you to easily hang it on the wall or on your son's sensory wall. Lighting effects are controlled through a remote control.
- **Sensory Infinity Lights** : Our premium sensory lights create the captivating infinity illusion of tunnel lights. It can create a striking illusion. At the same time, when the LED light is off, it is a mirror.
- **Wide Application** : This sensory infinity mirror light is suitable for a kid's room, sensory room, bedroom, wedding, holiday, party, birthday, Christmas, New Year or other occasions.
