

### IP66 13A RCD 2G switched socket

RCD protected outdoor socket with latching type RCD means you do not need to reset after a mains power failure so any essential devices running off this for example a pond pump would re-engage as soon as power supply is back on ensuring no long term problems.

MLA part code	IPRCD
Dimensions (mm)	Height – 127 Width – 170 Projection – 90
Nett weight (kg)	0.502
RCD type	Latching
Maximum load (A)	13
IP Rating	IP66
Cable gland size	20mm
RCD trip current (mA)	30
RCD trip speed	Less than 30ms
Manufactured in accordance with	BS1363, BS EN 60529
Warranty	1 year
Construction	Polycarbonate and ABS
Origin of manufacture	China
Declaration of Conformity (held on file)	Yes
EAN	5055559195733
