## REFLECTORS

GLASS REFLECTORS

COMPACT REFLECTORS

## DESCRIPTION

Compact fluorescent reflector lamps are ideal for all applications requiring flood lighting. Low energy and low heat allow greater flexibility in display situations as well as reduced maintenance and running costs. These lamps are a direct replacement for tungsten halogen reflector lamps. Available in glass outer in the same style as the traditional halogen, or with plastic outer which has a higher lumen output and smaller size.

## TECHNICAL SPECIFICATION

PRODUCT CODE	POWER (W)	VOLTAGE (V)	CAP TYPE	OUTER BOX QUANTITY	OUTER BOX WEIGHT (Kg)	LAMP LIFE (HOURS)	OUTER BOX DIMENSIONS (cm)	LAMP LENGTH (mm)	LAMP WIDTH (mm)
